Summary :

Enthusiastic Fresh Front-End Developer with a passion for creating unique user experiences. Quick learner capable of adapting to new technologies and working effectively within multidisciplinary teams. Seeking to join a creative team to enhance my skills and contribute to innovative web applications.

Skills :

Technical Skills: HTML, CSS, JavaScript, ES6 and beyond, TypeScript, React, Redux, Jest, Bootstrap.

Tools: Git & GitHub, Command Line.

Design: Responsive Design.

Soft Skills : Problem-Solving, Communication, Teamwork and Continuous Learning.

Projects:

- **E-commerce:**

An eCommerce clothing store **project built with** React, TypeScript, Redux Toolkit, Redux Persist, Vite, Bootstrap, and Lottie **to manage application state, enhance user experience with animations, and create responsive UI with performance optimizations.**

- **Doctor:**

Designed as a medical website using React, HTML, CSS, and JavaScript. Used React Router for seamless page navigation, with state management via `useState` and `useEffect` and `useReducer` for dynamic data updates. Added animations to enhance interaction and user experience. The site is responsive to ensure a smooth experience across all devices.

- **Shopping Cart:**

Developed an interactive shopping cart using React, React Hooks, and React Router. Managed state with `useState` and `useEffect`, enabling real-time updates of product quantities and totals. Enhanced user experience through smooth interactions and responsive design.

- **Create, Read, Update, Delete System:**

Created an app for performing CRUD operations (Create, Read, Update, Delete) using HTML, CSS, and JavaScript, leveraging Local Storage to improve data retrieval speed by up to 30%.

- **Currency Converter:**

Implemented an API to fetch live exchange rates, improving user experience with real-time data updates and reducing data errors.

- **Memory Game:**

Developed an interactive memory game using HTML, CSS, and JavaScript, featuring a timer for each attempt, a set number of allowed errors, and sound alerts for card matches and mismatches. Utilized JavaScript for dynamic functionality and CSS for responsive design.

Work Experience:

Intern Front-End Developer

Assisted in developing user interfaces for client websites using HTML, CSS, and JavaScript. Collaborated with designers to implement responsive design features.
